WHO WE ARE

One Algorithm LLC is a woman-owned and minority-owned small business (founded 2020, Malvern PA) delivering cloud modernization, Salesforce and Zendesk platform engineering, data engineering, Microsoft 365 administration, and IT program management. We pair small-business responsiveness with delivery leadership drawn from Fortune 500 IT programs — and we put senior engineers, not bench staff, on every engagement.

CORE SERVICES

- Salesforce platform engineering
- Zendesk implementation & support
- Data engineering, integration, migration
- Cloud architecture — AWS and Azure
- Microsoft 365 administration
- Custom software development
- IT project & program management
- Staff augmentation & IT training
- Application modernization & support

We build to NIST and DFARS requirements as part of delivery. We are not a dedicated cybersecurity services provider and do not pursue standalone security engagements.
